1. Caller wants to know what the Bible says about gossip.
2. Is being angry with God wrong? For example: if you pray for something and get it, that's a good thing and you feel He has answered. Then a short while later its taken away from you, its like He has turned around and said 'NO', I have changed my mind and you can't have it.  
Isn't it God said 'let your yes be yes and your no be no'?
