

Harnessing Technology

James 3:6-8

TECHNOLOGY ISN'T THE PROBLEM

- God has always intended for man to develop His creation (Gen. 1:26-28; 2:15).
- God makes much usage of technology.
- No matter what we make we are using God's creation (Gen. 11).
- Technology can do great things, but it cannot discover wisdom (Job 28).

WE NEED A HARNESS

- Consider what God says about the tongue which He created (Jas. 3:6-8).

- The issue isn't the thing, but our devotion to it (1 Tim. 6:10).
- Consider the warnings about money (Prov. 23:4-5).
- The greater our conveniences the greater the danger (Deut. 6:12).
- Who is guiding the ship?
