

# TO UNDERSTAND JUSTICE

1 Kings 3:11

# DEFINING JUSTICE

- Justice involves rules to be followed (Ex. 24:3; Deut. 16:16-22).
- It is fairly weighing evidence and applying those ordinances (Lev. 19:35).
- It is using true measurements to determine what is accurate (Job 31:6).
- It is rigorous impartiality (Lev. 19:35).

# DEFINING JUSTICE

- It demands consistency (Ex. 21:9, 31).
- It is about what someone deserves (Ezek. 5:8; Deut. 19:6).
- It also vindicates (Psa. 35:27).
- Some are more likely to suffer injustice (Deut. 27:19).

# DO (JUSTICE) UNTO OTHERS

- The application of Matthew 7:12 is obviously very broad.
- How would you design a system of justice (Matt. 7:1-5)?
- Haman gives us a graphic illustration of this principle (Esther 6:7-10; 7:3-10).
- How do we react when our inconsistency is exposed (2 Sam. 12:13).
