OCTOBER, 2015 REPORT

I have the pleasure to get in touch with you in order to greet you as well as to your family and to all brethren in Steele. Thanks to God I am fine for now. I now want to proceed to share with the church some of my activities carried away on preaching the gospel in this area of our country, Honduras.

In Comayagua we have been facing the intentions of some men to take control over the church. As in all the centuries, mainly during the second and third centuries the church of Christ has had to combat the error comes from different sources. So I have taught the churches and individual the pure and true doctrine of Christ. Men in the church have learned so much in this regard. This takes time and efforts to establish the truth in the hearts of men. However brother Arnulfo and I are working a lot in different places like Siguatepeque, Motatal and Azacualpa.

The church in Motatal is well. Many contacts are gotten continuously. I visit people at homes, distribute bibles to some people and preach the word to people who belong to different religious denominations.

In Siguatepeque the work continues among our liberal brethren. The last contact I got is brother Ronald Urquía. Our first conversation was good. We had the talking at sister Adolfiná, who is his aunt and then he invited us to have the next teaching in his own house that will be this Saturday at three o'clock pm.

Recently brother Sergio Fernandez was visiting to preach to us for a week. Brother Sergio is a preacher in a city named Tela. He has been a preacher there for fifteen years. He preached here several subjects as THE AUTONOMY OF THE CHURCH, THE NEED OF AUTHORITY IN RELIGION, THE CORRECT INTERPRETATION OF THE SCRIPTURES. Brethren were edified and invited him to come again in the close future.

Summarizing contacts I have for now at least ten people to study the Bible with. Since Axacualpa is far from Comayagua is very hard for me to travel there frequently so I am trying to help other men to preach there more often. I am dedicating much of my time to write sermons, articles, bible lessons and some books. Thanks for your fellowship and for your prayers.

Brotherly,

Florentino Maldonado
