NOVEMBER, 2015 REPORT

I am glad to greet you as I do it at least once a month to share with you and the rest of brethren in regard to the preaching of the Word of God.

I want to tell you that in the church in Comayagua we have four new brothers. All of them are too young boys. Daniel 16, Nixon 14, Didier 13 and Anthony 12. Starting the next week I am going to start a program of training with them to serve in the church. The congregation need to have young people thinking in the future of the church. Brother José Sanchez is an old man and his physical capacities are declining day by day. Brother Noe who was the other one that helped us in the Lord's work has abandoned the church so it is necessary to teach other people as meeting leaders, song leaders, preachers and teachers. These four new brothers have Christian parents, so these young boys have heard the God's word for several years.

The church in Siguatepeque continues well. Brother German the preacher there is growing continuously in the doctrine of Christ, in the grace and the knowledge of our Lord Jesus Christ. I continue teaching the Christian men there every two weeks and these lessons are being very useful for them, the church is growing in order and imitating the pattern of the New Testament for the local church. I continue traveling to study the Bible with my contacts in Azacualpa, it is not possible for me to go there more frequently for lack of time and the financial limitations.

I am satisfied with the church in Motatal. A woman named Ruth is visiting the meetings. Brother Luis who belonged in the recent past to the liberal church is learning so much as well as his wife Carmen. In a programmed time I am visiting this community to study the Bible with some people here.

I hope God open the hearts of those who hear the Gospel to obey Christ and of those who have been baptized to remain steadfast. I am also expressing my heartfelt gratitude for your communion with me in extending The Christ's Kingdom in this world. Thanks for remembering to "preach the word" such a thing I do whenever I have the opportunities. God be glorified!
